v. 116, no. 2, p. 203-206.

A previous method (Akad. Nauk SSSR Doklady 102;
711-714, 1955; available in translation from LC or
SLA m\$1.80, ph\$1.80 as 59-16711) which reduces the
problem of propagation of radio waves in irregular
waveguides to a system of standard differential equa-
tions is applied to symmetrical electrical waves in a
symmetrical waveguide junction of circular cross sec-
tion. Expressions are given for the amplitudes of the
discharged parasitic waves.
